Oakland, CA

Oakland's diversified economy has gained national attention as a great place to do business. The City has become a major destination and employment center in its own right.

Significant investment has flowed into Downtown Oakland, but other areas have not experienced the same level of investment. The City wants to leverage Opportunity Funds to advance equitable economic development in our 30 Opportunity Zones.

Adopted Specific Plans for parts of East and West Oakland will help guide investment in many Opportunity Zone tracts and add a level of predictability for developers.

The Opportunity Zones are meant to spur economic development and job creation in distressed communities by providing tax benefits to investors.

Investors receive capital-gains tax deferral, reduction in basis for long-term investments and other tax incentives.

Investments made by individuals through Qualified Opportunity Funds in these zones would be allowed to defer or eliminate Federal taxes on capital gains.

You can get the tax benefits, even if you don't live, work or have a business in an Opportunity Zone. Investments are not administered or overseen by the City of Oakland. ([Learn More](#))
